HIPAA HAPPENINGS

PLEASE KEEP FOR YOUR RECORDS

This notice describes how your health information may be used and how you can gain access to this information. Please review it carefully.

Our Promise to You, Our Valued Patient...

This is not meant to alarm you. Quite the opposite. We want to assure you that we take the new federal Laws of HIPAA (Health Insurance Portability and Accountability Act) very seriously. These laws were written to protect the confidentiality of your health information. We trust you will never delay treatment in our offices because of fear that your personal health information might be unnecessarily disclosed to others outside our office.

Why a Privacy Policy Now?

The most significant variable that has motivated the federal government to legally enforce the privacy of health information is the rapid evolution of the use of electronic technology in the administration of healthcare business. The government has appropriately sought to standardize and protect the electronic exchange of your health information. This has challenged us to review not only how your information is used within our computers but also with the Internet, phones, fax machines, and any device used to copy or transfer that data.

We want to advise you that we have developed policies and procedures for our practice to assure that your personal or health information will be shared only as required and only for the purpose of administering your case. Our office is subject to state and federal laws regarding the confidentiality of your health information and we will assure adherence to those laws and we want you to understand our procedures and your rights as a valued patient.

Your health information will be communicated only for the purpose of obtaining payment for services and conducting health care business. Be assured that without your written permission your health information will not be used for any other purpose.

How Your Health Information May Be Used to Provide Treatment

Within our office, your health information will be used to provide the best care and services possible. This may include administrative and clinical procedures designed to optimize scheduling and coordination between you and all office personnel. In addition, we may share this information with referring physicians, clinical pathology laboratories or other health professionals providing treatment.

To Obtain Payment

Your health information may be included with an invoice for the purpose of collecting payment for services provided to you in this office. We may do this with insurance forms filed for you by mail or electronically. We will make all effort to work with companies with similar commitment to the security of your health information.

To Conduct Health Care Operations

Your health information may be used during performance evaluations of our staff. Some of our best teaching opportunities use clinical situations experienced by patients receiving care in our office. As a result, your health information may be included in the training programs for students, interns, associates, as well as business and clinical employees. It is also possible that your health information will be disclosed during audits by insurance companies or government appointed agencies as a part of their quality assurance and compliance reviews. Your health information may be reviewed during the routine process of certification, licensing or credentialing activities.

In Patient Reminders

Because we believe regular care is very important to your general health, we will remind you of a scheduled appointment or that it is time for you to contact us and make an appointment. Additionally, we may contact you to follow up on your care and inform you of treatment options or services that may be of interest to you or members of your family. These communications are an important part of our philosophy of partnering with our patients to be sure they receive the best care that chiropractic can provide. They may include postcards, newsletters, flyers, telephone or electronic reminders such as e-mail (*unless you tell us that you prefer not to receive reminders*).

Public Health and National Security

We may be required to disclose to federal officials or military authorities health information necessary to complete an investigation related to public health and/or national security.

For Law Enforcement

As permitted or required by state or federal law, we may disclose your health information to the proper authorities for the purpose of law enforcement including certain circumstances in which you are a victim of a crime or in order to report a suspected crime.

Family, Friends, and Care Givers

We may share your health information with those you tell us will be assisting you with your home hygiene, care, treatment or payment. We will be certain to obtain your permission prior to sharing your information. In the event of an emergency, were you unable to tell us what you want, we will use our very best judgment when sharing your health information with anyone participating in your case.

Medical Research

Advancing healthcare knowledge often involves learning from the careful study of health histories or prior patients. A review and study of health histories as a part of a research study will happen only under the ethical guidance, requirements, and approval of the Institutional Review Board (IRB).

Authorization to Use or Disclose Health Information

Other than is stated above or where federal, state, or local law requires us, we will not disclose your health information other than with your written authorization. *You may revoke that authorization in writing at any time.*
